

**FRAM FARMERS LIMITED**  
**ELECTRICITY PURCHASING AGREEMENT**  
**FEBRUARY 2025**

#### Electricity Terms and Conditions:

- I confirm that I authorise Fram Farmers Ltd of Station Road, Framlingham, IP13 9EE (**Fram Farmers**) to act on my behalf in respect of the purchase of a supply of electricity to my MPANs currently billed through Fram Farmers.
- Fram Farmers has my authorisation to receive any historical data (either from us or from an electricity provider) that will enable them to secure competitive energy prices for those MPANs, and I will ensure that any such data required from us is provided promptly.
- I also confirm that Fram Farmers has my authorisation to manage my electricity supply contract and deal with any of the financial aspects of my electricity supply contract in relation to billing, payment and query resolution and has authority to pass on any data and information about my supplied premises to facilitate the supply of electricity to those premises. I acknowledge the Fram Farmers will enter into contracts directly with the electricity supplier and will be subject to the conditions and restrictions within that contract, and that I will use best endeavours to ensure that I do all such things as are required to enable Fram Farmers to meet its obligations in that contract when brought to my attention by Fram Farmers.
- Fram Farmers has my authorisation to enter, vary, terminate, and extend my electricity supply contract as and when they feel it is advantageous without prior consultation with ourselves.
- I confirm that I am liable for all charges and other liability in respect of any MPANs and the electricity supplied to it in line with the agreed contract.
- I understand that Fram Farmers will comply with Ofgem regulations regarding invoice disputes or errors.
- I am liable for payment of the invoices should an investigation conclude that charges are correct.
- I understand that the Fram Farmers portfolio is a commercial energy contract and any domestic supplies included on the portfolio will be subject to commercial electricity supply terms and conditions, which will, as between Fram Farmers and me, bind me in respect of Fram Farmers' obligations under those terms and conditions. These may include the circumstances in which and speed with which Fram Farmers is able to release my MPAN from the scope of the contract.
- I understand and acknowledge that estimated meter readings is not a sufficient reason to dispute electricity invoices as per supplier and Ofgem terms and conditions.
- In the event that I relinquish responsibility for an electricity supply, I understand that Change of Occupancy will need to be completed at the earliest convenience and the supply will be removed from the Fram Farmers

portfolio from the date provided. I will be liable for any termination costs incurred from the supplier.

- I am responsible for notifying Fram Farmers if one of my supplies is domestic and requires VAT reduction as a result. I understand that VAT cannot be backdated and can only be applied from the point where a VAT declaration form has been provided.
- In the event that Fram Farmers cancels my membership, the responsibility of all sites will revert back to myself and I will be billed directly by the supplier. Fram Farmers will not be responsible for the management of the supplies from this moment forwards. Any termination costs incurred will be payable by myself. Any rebilling after the membership is terminated will be payable by myself.
- To terminate my electricity contract, I am required to provide Fram Farmers with at least 3 months' notice prior to the end of the live contract.
- These terms and conditions shall apply alongside and be supplemental to any obligations in my Membership Terms and Membership Agreement. In the case of conflict between those terms and conditions, the Membership Terms and Membership Agreement, these terms and conditions shall prevail.
- I shall do all such things and enter into all such agreements as are required to enable Fram Farmers to comply with its contract with the electricity supplier for the supply of electricity to my MPANs.
- I shall provide such access to the premises of which my MPANs are located to enable Fram Farmers to meet its obligations to the electricity provider, including (without limitation) to Fram Farmers, the electricity supplier, and its metering agents.
